of visitors from abroad, from Belgium,
the Netherlands, Germany, Italy, Spain...

Audrey Marpault - agriKomp France

"Expobiogaz is an exhibition dedicated to professionals, with lots of conferences providing very good analyses of the renewable gas market and its developments."

Julien Brochier - K-REVERT

"This exhibition is great for meeting new customers. More and more professionals attend every year, proving there's real interest in Expobiogaz! The exhibition's geographic location is also perfect for international meetings."

Cyril Oliver - Grand Narbonne

"Expobiogaz is a place where our territory can gain in visibility. It's a highly specialist exhibition in the sector, enabling people to better understand its organization and to meet a lot of stakeholders."

AN EXHIBITION AT THE CENTRE OF REGION BRIMMING WITH POTENTIAL

A BUOYANT REGION

108

biomethane injection projects in the Hauts-de-France region in 2018 against 54 in 2017, an increase of 100%*

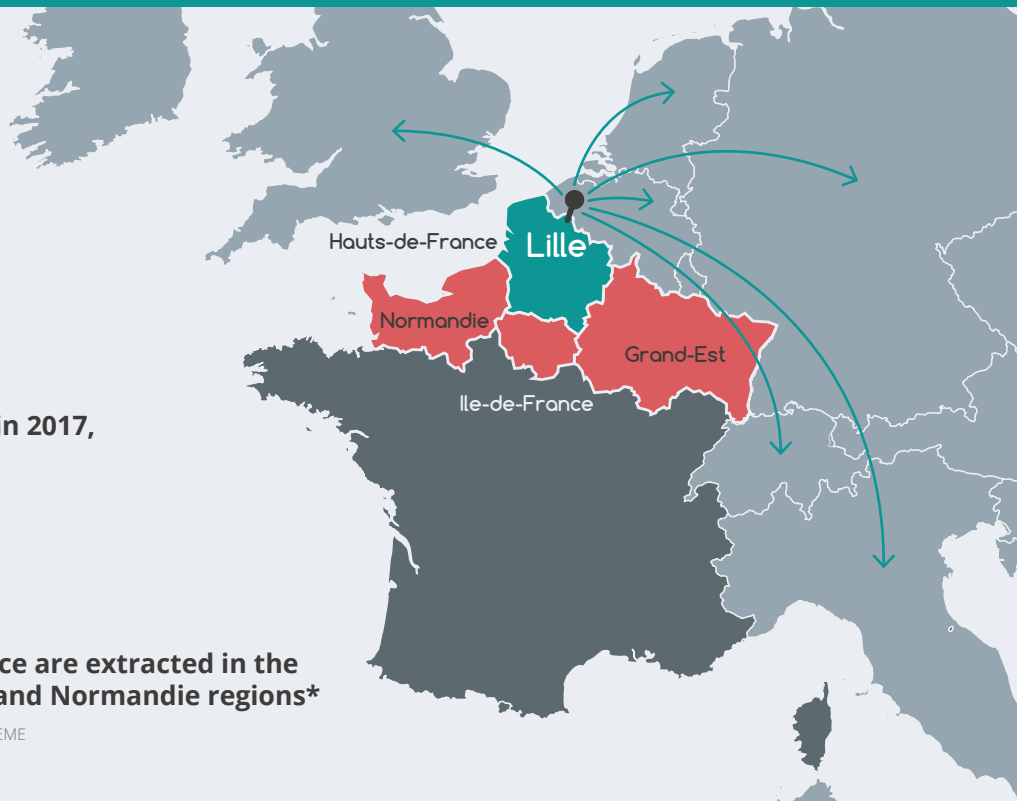

*GRTgaz and Terega

MULTI-REGIONAL IMPETUS

41%

of resources exploitable up to 2030 in France are extracted in the Hauts-de-France, Grand-Est, Ile-de-France, and Normandie regions*

*Estimate of potential resource substrates usable for anaerobic digestion - ADEME
