Biogas - the product of an efficient and sustainable use of resources

EBA

European Biogas Association

Considering joining?

These are our membership advantages

EBA is the voice of biogas in Brussels and also supports the interests of your company. Our Association works in close cooperation with EU institutions and actively contributes to the legal framework of biogas.

EBA's office, at the Renewable Energy House, represents biogas and makes your company visible within the family of renewables.

EBA has an extended network across Europe. Our members are national biogas associations, international companies, research institutes as well as private persons. As a company member you can participate and contribute to this platform.

EU projects - international projects help to develop the biogas sector. EBA is partner in different EU projects (e.g. European Sustainable Biofuels Platform, FAB Biogas, BIOSURF). As a company member you can be involved in our research activities and cooperate with EBA in removing existing barriers for biogas.

Scientific Advisory Council

Company Advisory Council (CAC) and Scientific Advisory Council (SAC) give an opportunity to the industry and science to reflect their views towards the European Union Institutions by strengthening EBA's voice in policy-making in a concerted way. Some of the special activities of the CAC and SAC increasing your company's visibility in Europe are:

- Visibility of your company and services in the Companies' Catalogue
- Broadcasting your successful projects in Success Stories
- Creation and visibility in brochures on biogas specific topics
- Networking events

- Raise the visibility of your studies
- Provide scientific evidence to EBA position papers and public communication
- Advise on programme of EBA workshops and conference
- Support EBA Board in evaluation of project proposals
- Extended cooperation with other members (research institutes, universities) within SAC in order to increase exchange of experience and information in biogas research.

Articles

2014 in numbers

You will get EBA publications and studies (available for members only):

- Annual Biogas Report about the development of the European industry and future perspectives
- Country profiles allowing your company to identify opportunities on international markets
- In-depth analysis of the National Renewable Energy Action Plans and EU policies in general
- Information on national support mechanisms and barriers to biogas deployment

EBA has a wide outreach when it comes to information exchange through its established ways of communication. All our digital and printed material features news from Brussels as well as your company including your press releases and more.

In 2014, we tripled the size of our online outreach, with a continuous increase in 2015.

Our newsletter is read by local and regional authorities, European institutions, NGOs, companies, research institutes and media partners. Newsletters feature first-hand news from Brussels, our own articles, as well as your press releases, articles and any other information your company would like to deliver to public.

WEBSITE

31.000 Visits

New visitors 60%

2.5 Pages per visit

Your company will have its space on our website, with own log in credentials, access to all publications and studies and more. Our website features success stories and companies catalogue.

EBA is present at numerous Europe-wide events, as a speaker, exhibitor or organiser. Having EBA present at various conferences and workshops in Brussels and Europe, means representing your company there, your company's interests and your general visibility, through the brochures and catalogues we prepare. We can provide discount on entrance fees, too.

Our conferences and workshops attract a big number of stakeholders and by being our member you have the opportunity to become a speaker or a sponsor, including the Europe-wide biannual Biogas Conference, with other high-level speakers.
